ABOUT AFRICA BUILD SHOW

Africa Build Show (ABS), The 2nd International Building and Construction Technology Exhibition will be held from 18-16 July 2024 at Kenyatta International Convention Centre and will serve as an ideal B2B platform for global construction manufacturers, suppliers, businessmen, contractors and industry professionals to meet, exchange ideas, and explore business collaborations to increase their footprint in East Africa by covering the entire value chain from project inception to completion.

With an economy that's growing at twice the pace of the global average for developing countries, Africa Build Show - Kenya gives you an opportunity to tap into East Africa's vibrant and multibillion-dollar construction market.

ABS - Kenya is where business partnerships takes place and flourish.

Our strong and effective marketing campaign spans across Kenya and its neighboring countries, ensuring a diverse and influential audience. Join us at ABS - Kenya to explore and gain a share of the country's thriving building and construction market.

Country Overview & Market Insights

Kenya's construction and building industry is poised for significant growth and investment opportunities in 2024. Various factors, including infrastructure development, energy, housing, and industrial facilities, are expected to drive the industry's expansion. Moreover, the Kenyan economy is projected to grow by 6% in 2024, with the construction sector playing a substantial role in this growth. These developments present promising prospects for stakeholders and investors in the construction and building industry.

Kenya Construction Market size

Was valued at \$16.6 billion in 2021 and is expected to achieve an AAGR of more than 5% during 2024-2026.

Commercial Real Estate

The market in Kenya is projected to grow by 4.98% between 2024 and 2028, resulting in a market volume of US\$95.99 billion in 2028.

Residential Real Estate

The market dominates the market with a projected market volume of US\$618.80 billion in 2024, with an expected annual growth rate (CAGR).

The construction sector is experiencing robust growth, driven by government investments in infrastructure projects, housing, and energy development. This industry is ripe for investment, with opportunities for businesses looking to invest in this dynamic sector.

These statistics and projections indicate a positive outlook for the construction and building industry in Kenya in 2024 which is why you should come and join us at Africa Build Show Kenya.

KENYA CONSTRUCTION MEGA PROJECTS

Infrastructure Development: The Kenyan government is focusing on improving infrastructure, including transport, electricity, and housing projects. The government has announced plans to build **1,450 ICT hubs** for citizen digital literacy training, film creation, and public access to government services in all wards across the country beginning in 2024.

\$32 MILLION FOR THE CONSTRUCTION OF EIGHT SPORTS FACILITIES IN KENYA

The construction of 30 million euros (\$32 million) for the construction of eight sports facilities in Kenya is a significant project aimed at promoting sports and physical activities in the country. The facilities will be built across various locations, providing opportunities for sports enthusiasts and athletes to engage in various activities.

KISUMU BYPASS

The project is the 104km four-lane stretch running from Kisian in Kisumu to Busia border town or the Kisumu-Uganda Expressway. The 104km segment will run from Kisian in Kisumu to Busia town. The project will also involve the construction of 11km road between Kisian and Kisumu bypass.

The Kisumu-Uganda expressway will be a continuation of the \$1.48 billion (Sh185 billion) Kampala-Jinja expressway, which is scheduled for completion by 2025.
